```
              B (G)              G#m (Em)
1.            I'm not a perfect person
                                                      B (G)
              There's many things I wish I didn't do
                          G#m (Em)
              But I continue learning
                                                     E (C)
              I never meant to do those things to you
                                          F# (D)
              And so I have to say before I go
                                        B (G)
              That I just want you to know
```

```
              B (G)                      G#m (Em)
Chorus:       I've found a reason for me
                                    E (C)
              To change who I used to be
                                       F# (D)
              A reason to start over new
                                 B (G)
(1st & 3rd time)  And the reason is you
              F#sus4 (Dsus4)          Asus2 (Fsus2)
(2nd time)    And the reason is you,
                               B (G)
              And the reason is you
                              Asus2 (Fsus2)
              And the reason is you,
                              B (G)
              And the reason is you
```

```
2.            I'm sorry that I hurt you
              It's something I must live with everyday
              And all the pain I put you through
              I wish that I could take it all away
              And be the one who catches all your tears
              That's why I need you to hear
```

Chorus: **I've found a reason for me . . .**

```
                  B (G)              G#m (Em)
3.            I'm not a perfect person
                                                     E (C)
              I never meant to do those things to you
                                          F# (D)
              And so I have to say before I go
                                        B (G)
              That I just want you to know
```

Chorus: **I've found a reason for me . . .**

Chrous 2: **I've found a reason to show**
              A side of me you didn't know
              A reason for all that I do
              And the reason is you
